12:00 p.m. – 3:30 p.m.

Bug Buffet, Live Insect Displays, Fun Giveaways, Activities and Games

Three Entertaining Presentations

12:00 p.m.

“All About Insects”

1:00 p.m.

“Integrated Pest Management”

3:00 p.m.

“BUGged Out”

This innovative educational experience promotes the message of Integrated Pest Management (IPM) in a fun and exciting way for both children and adults. Everyone should understand their environment and how to protect it. So, it is important to know both your pests and responsible ways to control them. Pests may include weeds, diseases, insects, rodents, etc. Learn how Integrated Pest Management (IPM) uses multiple tactics to manage pests responsibly.

Be sure to check out the Integrated Pest Management (IPM) display with live insects, free educational materials, pest management information (weeds, diseases, wildlife, and insects), fun giveaways, bug tattoos, activities and games.
