Custom H2 Hummer

This *state-of-the-art* **Multiple Exhibit Vehicle** (MEV) is aptly named because there are *exhibits in three separate areas* of the unit.

The MEV can run *3 separate video sources* at one time! Check out the *main 30" LCD screen and play one of the many Army-related games on the X-Box that interacts directly with the H2 Hummer!* Don't miss the *Army related video and live action camera on 2 flip-out LCD screens!*

While all this is going on, the MEV will also *play a variety of music through the JL Audio system*, which will be sure to attract a large crowd!
